Re: Blosenski Landfill  
Contract No. 68-01-7037  
Work Assignment No. 3449

Gentlemen:

We are transmitting herewith one (1) copy of the Blosenski Site Focused Feasibility Study Draft Final Report.

As discussed with Mr. Ed Shoener, we had assumed that the NUS Remedial Investigation Report would permit body contact. It apparently does not. Mr. Shoener suggested that we send the Report as written for review by the EPA.

We will make the necessary changes should body contact not be permitted.

Very truly yours,

PRC Environmental Management, Inc.
